

On-Demand Air Pillow System

Instant packaging protection at the touch of a button.

On-Demand Air Pillow System

The On-Demand Air Pillow System reduces your packaging costs and improves the environmental performance of your packaging. Designed and manufactured to hold up in the most demanding of warehouses and industrial applications. This single machine can produce on demand bubble wrap or air pillows, with a quick setting change.

- + Reduce Overall Packaging Cost
- + Superior Environmental Performance
- + Quality Manufacturing
- + Parts & Service Support

Air Pillow FAQs

Are these environmental films more expensive than competitive products?

Our films are priced to offer better value versus a non-environmental alternative and are guaranteed to reduce overall packaging costs for our clients.

How do the pillows biodegrade?

The film uses a special additive that causes the film to completely biodegrade, as measured by ASTM D6954-04. In the presence of moisture, micro-organisms and oxygen, Air Bio is certified to completely biodegrade in 12-24 months leaving no residue.

Technical Specifications

Speed:	Up to 55ft/min 82 cushions/min (8" x 8")
Throughput:	Up to 400 cu.ft/hr
